## **Identify Tool**

1.) Drag your cursor to the Identify icon and left click.
2.) Then drag your cursor to the area you want to identify and left click.
3.) A green flag will appear where clicked.  A popup window will also appear with information about the area that you clicked
4.) The window will contain PLS information and Congressional Township information.   It will also list any maps in that particular area.
5.) Click on the plus sign for each result to receive the information you are looking for.
